About company

DMIHONGBO (trade mark HBC-enc.), is a reliable company with a 21 year history of success and stability specializing in supplying different types of construction equipment to the CIS market.

Our company has been providing the broad variety of services related to development, designing, manufacturing and installation of asphalt-mixing plants, concrete batching plants, as well as automated parking systems. We guarantee high quality service, just in time delivery terms and acceptable prices.

The highest quality of provided equipment is strictly managed and certified with ISO and GOST certificates, new invention and utility model patents, ensuring the best quality for our customers.

CSR

We believe 'Responsible business is good business.'
We started CSR projects in 2014 – holding presentation seminars on APS at Novosibirsk State Technical University, and scholarship granting.

The background image shows a large industrial machine, possibly a conveyor or sorting system, with a prominent orange structure and stairs. The machine is set against a blue sky with scattered white clouds. An orange, irregularly shaped overlay is positioned in the center of the image, containing the text.
